

LEGENDARY ENTERTAINMENT VIR-7022NR MULTIMEDIA SOURCE UNIT

With nearly three decades of experience, Soundstream Technologies is a proven industry leader of aftermarket automotive audio / video products and accessories. All products are engineered in-house and structured to meet and exceed the interests and needs of today's consumers. Our quality-first focus ensures all Soundstream products offer a superior level of satisfaction over inferior original equipment manufacturer products. The continued expansion and success of Team Soundstream audio competitors also confirms product caliber and reliability performs at the highest levels. The Soundstream VIR-7022NR Multimedia source unit is the latest example of the innovative concepts that capture the success of the Soundstream brand and reputation. The detachable full function 7-inch LCD touch screen on the single DIN chassis is its primary feature. Soundstream's navigation and digital TV add-on modules also directly connect to the VIR-7022NR, while iPod, USB/SD and A/V inputs round out the lengthy list of integration capabilities.
